

Acrylate leveling agent Better BF-6210

Product description:

Better BF-6210 is a 70% active silicone free acrylate copolymer that can be re-coated with leveling agent.

The characteristics of this kind of leveling agent are:

1. Excellent flow and leveling;
2. Acrylate leveling agent has excellent compatibility and recoating property;
3. Effectively prevent shrinkage, pinhole, fisheye and other film defects.

Product physical properties:

appearance	Colorless to yellowish clear liquid
Active content%	70
Solvent	xylene
Flash point	26°C/78.8°F

Scope of application:

Solvent based paint.

Add amount and use method:

Addition: 0.1-2.0% of total formula; Under normal circumstances, the addition amount is 0.3-0.5% of the total formula

Add method: add later. Please test the most appropriate amount and compatibility before use.

Package specification and storage:

25、200KG/bucket;

Keep away from fire sources and place in a cool and ventilated place;

18 months under normal storage conditions.

Heavy metal content:
